

# My Chiropractic Experience

“After starting care, my nose isn’t as stuffy, my throat is not swollen, and my mom says my attitude is better!”

I have had sinus trouble since I was 4 years old. Sometimes, I felt like my throat was closing. I had a stuffy nose all the time and I was experiencing restless sleep. I tried many antibiotics and surgery was suggested to treat my symptoms.

After starting care, my nose isn’t as stuffy, my throat is not swollen, and I sleep better. My mom says my attitude is better. I also have more endurance in sports. I am definitely glad I am coming here.
